

## **Eligibility Criteria and Renewal :**

### **SENSORS FREESTYLE LIBRE 2<sup>MC</sup>**

- ◆ For self-monitoring of blood glucose in people with diabetes aged 4 years and older.

Upon initiation of treatment, the person :

- under 18 years of age must have type 1 diabetes;
- 18 years and older must meet the following 2 criteria:
  - Intensive insulin therapy (insulin pump therapy or  $\geq 3$  insulin injections per day);
  - and
  - frequent episodes of hypoglycemia in the past year, despite adherence to a blood glucose management management plan.

The initial application is authorized for a period of 6 months to assess patients' ability to use FreeStyle Libre 2? and to wear the sensor.

Requests for continued treatment are allowed for up to 12 months if the individual demonstrates optimal use of FreeStyle Libre 2? or FreeStyle Libre? at least 70% of the time.
